**PERFORMANCE BASED CONTRACTING**

**2015 CONFERENCE**

## Evolving PBCs Through Effective Long Term Relationships

Performance Based Contracting (PBC) has emerged to be the contracting model of choice when supporting defence materiel within the Australian Defence Materiel Organisation (DMO)—currently over 30 PBCs with a combined annual value of \$1 billion which is expected to increase to \$1.5 billion in the coming years.

As we approach the tenth anniversary of the first edition of the *Aerospace Systems Division PBC Handbook* in September, it is an ideal time to pause and reflect on where we have come from, where we are and where we may be going in the future.

The aim of the forum is to bring together users, practitioners, policy makers and academics from both Defence and industry to discuss the future evolution of PBC in the next decade.

This conference includes a range of presentations that examine current and future PBC policy and practice via case studies as well as international and academic perspectives.

During the conference, participants will hear from:

- » The DMO executive on their assessment of the current and future state of PBC
- » Project Offices and System Program Offices on their lessons learnt
- » Defence industry on their take on the application of PBC
- » Our international partners on their journey and their vision for the future
- » Academia on what is happening to PBC in the wider context
- » The DMO PBC Centre of Excellence (CoE) on their roles in making this vision a reality.

This conference is specially developed for directors, program and project managers, technical staff, engineers, logisticians, procurement and contracting staff, and contract managers responsible for the development, response, evaluation, negotiation, transition and operation of PBCs for operational logistics and support; maintenance, repair, overhaul and upgrade; transportation and fleet management; engineering; supply chain management; asset and facilities management; strategic and civil resource support and logistics and combat service support.

### WHEN IS THE CONFERENCE?

Tuesday 26 and Wednesday 27 May 2015

### WHERE IS THE CONFERENCE?

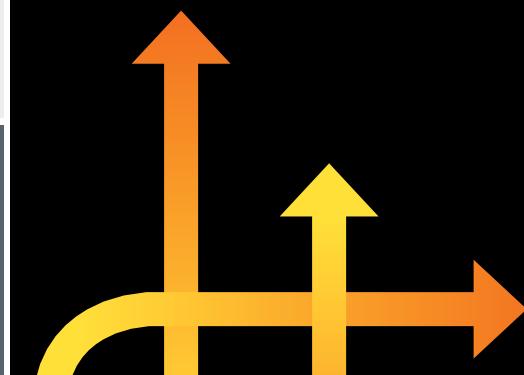

BP 33 and 35  
Brindabella Business Park  
Conference Centre,  
Canberra, ACT, Australia

### CONFERENCE COST?

There is no cost associated with attending the conference

### HOW DO I NOMINATE FOR THE CONFERENCE?

Numbers are strictly limited so reserve your spot now using [pbc.enquiry@defence.gov.au](mailto:pbc.enquiry@defence.gov.au) or by contacting Mike Desmond, Director of Training and Measurement DMO PBC CoE on +61 02 6144 2834

**DAY 1 – TUESDAY 26 MAY 2015****DEFENCE AND INDUSTRY**

Time	Topic	Presenter	Position
0830 – 0900	Registration		
0900 – 0910	Welcome	Dr Andrew Jacopino	Executive Director PBC CoE, DMO
0910 – 0920	Opening Address	Ms Shireane McKinnie	General Manager Joint Systems and Air, DMO
0920 – 1000	Defence Perspective	Mr Patrick Fitzpatrick	Director General Maritime Acquisition Branch, DMO
1000 – 1030	Morning Tea		
1030 – 1110	Defence Industry Perspective	Mr Kevin Rushworth	BAE Systems Australia
1110 – 1150	Canadian PBC Perspective	Mr Alain Bolduc	Program Manager Sustainment Initiative, Canadian Department of National Defence
1150 – 1230	Non-Defence PBC Perspective	Mr Tim Cummins	CEO International Association for Commercial and Contract Management
1230 – 1330	Lunch		
1330 – 1410	Case Study: Aero Engines	Mr Matthew Hansell	Tactical Fighter Systems Program Office, DMO
1410 – 1450	PBC – The New Approach for Government Aircraft MRO Contracts in Malaysia	Datuk Ir Kamarulzaman Zainal	Senior Vice President (Industry intelligence) Malaysian Industry-Government Group for High Technology
1450 – 1520	Afternoon Tea		
1520 – 1600	PBC Past, Present and Future	Dr Andrew Jacopino	Executive Director PBC CoE, DMO
1600 – 1620	Panel – Q&A		
1620 – 1640	Day 1 Closing Remarks
